

Canterbury Olive Processors Ltd

Awarded “Best Processor” for 2013

The details of plant available for purchase are as follows:

- 10 x 300kg capacity Receiving Bins
- Loading frame for Bins – incredibly effective fruit handling system
- Enorossi Receiving Hopper
- Enorossi Washer Deleafer
- Enorossi Hammer Mill/Malaxer Loading Hopper
- Enorossi 250/500 Model Hammer Mill/Malaxer c/w Bellini Paste Transfer Pump
- Alfa Laval NX904 Centrifugal Decanter – 500kg/hr with 4m S/S Auger attached to Centrifuge for Waste removal
- Stainless Steel Oil Receiving Tank with two mono pumps to Holding Tanks
- 4 x Stainless Steel Holding Tanks for Oil awaiting separation
- Alfa Laval Model UVPX 205 Vertical Separator (allows Oil to be bottled immediately after processing – other systems require oil to settle for up to three months)
- Receiving/dispensing tank
- High speed mono pump for oil transfer.

Advice on plant setup would be made available

Full training in the plant operation would also be available.

Assistance with Food Safety Programme available if desired.

Plant currently stored in 40ft certified sea container ready for shipping.

Offers over \$50,000 plus GST (includes certified container value approx \$5,000).

If you are contemplating the purchase of a proven processing plant for your operation for the 2015 season then you need to purchase now.

Enquiries should be directed to:

Graham Keen – tel 03 312 5178 (evenings preferred), or email grahamkeen1@gmail.com
