## Harvest 2017

To assist us with scheduling harvest this year and to provide the best efficiency for everyone we would appreciate if you could please advise (by phone or email) the approximate number of trees by variety you would like harvested along with your preferred harvest dates. This will enable us to create a regional harvesting schedule and I will be able to get back to you with an estimated harvest date(s). As with previous years I will endeavour to carry out harvest around the date(s) you prefer, but this is dependent on the weather and any other factors outside of my control.

Our charges for harvest are listed for you below. The tree rates remain the same as previous years however we have replaced our relocation charge with a gate fee. The gate fee will apply for each and every time we deliver harvesting machinery to the grove and goes towards the cost of the time and expense in travel and relocation.

Cost summary for each and every grove location:

- The first 300 trees are \$6.80 per tree plus GST.
- Remaining trees are \$5.50 per tree plus GST.
- Gate fee \$250 plus GST (this may be charged more than once depending on the number of visits to the grove).
- Fruit or bin transport rates will be based on time taken and distance travelled and may be shown on invoices either by unit, bin or truck rate.
- Forklift hire and operator hours are by arrangement.

Regards,

*Andrew Taylor*
